Photoshop

Illustrator

Writing

Hi, I am a problem solving Developer, an inspired team player, who enjoys working with people who are honest, open and transparent. I love to learn new programming paradigms, languages, and frameworks. I am happy to mentor less experienced developers and I am excited, at the moment, with React and WebGL.

Experience

- 2008 - **Goody Interactive** - contract and direct to client project development: estimating timelines, budgets ; working onsite, offsite ; technical consultation
- among others:
 - **MacLaren McCann** - developed dozens of projects for GMC, Chevrolet, Buick, Pontiac, Royal Bank, Nestle, OLG, MasterCard
 - **inOrbital** - developed web content and eCommerce projects for Shoppers Drug Mart, T-Shirt Monster, Home Depot
 - **Red Urban** - developed interface for Volkswagen Canada
 - **Henderson Bas** - designed and developed web content and advertisements for LG and Nintendo
 - **Tribal DDB** - developed advertisements for Manulife
 - **super goody gogo**: designed and developed gpu-accelerated video game for iOS, Android & Amazon
- 2003 - **Contract Flash Developer** - primarily onsite flash development, with small to midsize teams
- among others:
 - **MacLaren McCann** - developed interface for Chevrolet's Let's Go Campaign, and many other projects
 - **Grip Ltd.** - developed Acura's Advanced Technology Center
 - **InstaClick** - developed a customizable interface for a dating engine on a small team of developers
- 1998 - **Freelance Writer**
- among others:
 - **National Post** - wrote interviews and technology stories, notably: Coldplay, Janeane Garofalo, 'It's a Digital Life!'
 - **Vice** - wrote lots of stories and interviews, generally of a quirky nature ; named employee of the month
 - **Rosco** - wrote personal profiles of artists, musicians and media personalities

Education

- 1998 **York University**
- B.A. Double Major English and Creative Writing.
- Wrote short stories, magazine articles and screenplays
